

Brown Deer Village
Planning Commission
4800 West Greek Brook Dr.
Brown Deer, WI 53223

October 28, 1997

Dear Commission Members,

This letter is with regard to a community living arrangement which I am interested in opening. The property in discussion is located at 3400 W. Bradley Rd. Brown Deer., WI 53209. According to Brown Deer City rules, such a living complex must be spaced at least 2,500 feet away from a similar one. I am asking that you make an exception to the rule and allow me to open the building for housing.

Housing of this type is in great demand. Opening of this house will be very beneficial to elderly persons in the area who need extra care and attention. The maximum number of people living in the house will be eight, small enough to allow for a family environment.

This complex will be fairly far from the nearest similar complex which will allow residents to meet others from neighboring houses, yet keep them far enough apart to allow for privacy and maintenance of peace in the neighborhood.

With three of the five members in my family in college, allowing this business to open will be of great help and much appreciated. Additionally, as a Registered Nurse, I have many benefits to offer to the residents. Overall, everyone will benefit from this home being allowed to open.

I appreciate your understanding and hope you will allow me a variance. I thank you in advance for your time and cooperation.

Sincerely,

Zvia Shaer, R.N.
